

5 OCTOBER 2016

**JRP GROUP PLC Capital Markets Day
A Sustainable Model In Growing Markets**

Following completion of the merger of Just Retirement and Partnership in April, JRP Group is today hosting a capital markets day. JRP will update analysts and investors on its strategy, demonstrating that it has a profitable and sustainable business model in growing markets.

Rodney Cook, CEO of JRP Group, said:

“We are delighted to update the market on the progress we have made with our business model since our merger. Today’s update explains how medical underwriting gives us an IP-driven competitive advantage. This, and our innovative distribution strategy will give us a continued edge in growing retirement income markets. Once our targeted merger synergies are captured we expect to achieve mid-teens new business IRR’s. We also explain how our conservative balance sheet management and capital-lite financial model ensure the sustainability of our capital strategy. This has driven our resilient capital position. Our recent results demonstrated that the model is already delivering increasing shareholder value, through rising merger synergies and increased margins.”
